HP EliteBook 2560p Notebook PC

Lighten Your Workload

HP's smallest and lightest EliteBook presents a 31,75 cm (12.5") diagonal display, new professional design, standard voltage processor[1], full-size hard drive and an optical drive.

HP recommends Windows® 7.

Small size, great design
Debuting in a platinum color, the full-featured HP EliteBook 2560p redefines thin and light notebooks. This PC is designed to meet the tough military standards (MIL-STD 810G)[2] for vibration, dust, humidity, altitude and high temperature. The built-in keyboard drain helps prevent damage from spills, so you'll confidently carry this 1.67 kg (3.68 lb) PC to every appointment.

Full power
Create documents, presentations and spreadsheets and quickly share them with co-workers. The new Intel architecture features the 2nd generation Intel® Core™ i7[3] and i5[3] dual-core processors. Benefit from incredible performance and responsiveness with a new solid state drive or a fast 7200 rpm hard disk drive up to 750 GB[4]. Despite its compact size, you can store plenty of data.

Benefit from exciting processor performance features like Intel® Turbo Boost Technology 2.0[5]. Help trim IT costs with remote manageability through Intel® Core™ processors with vPro™ Technology[6].

Run demanding graphics with the Intel® HD Graphics 3000[2] which delivers responsive performance and rich media capabilities.

Stay connected and charged
HP's extensive wireless technologies[7,8] have you covered, too. Collaborate clearly using SRS Premium Sound, dual array microphone and optional HD webcam. The HP EliteBook 2560p also has multiple battery options for lightweight, extended battery life configurations or 3-year battery warranty.

Built to simplify
With HP QuickWeb[9] you can tap into fast, convenient and more secure access to the internet, email, contacts and calendar all at the touch of a button and without long boot-up times. With HP Connection Manager, you get full control over your wireless connections through a single user interface.

Built to protect
HP ProtectTools is a portfolio of security technologies, that's easy to use, robust and can be centrally managed by businesses of all sizes across HP and non-HP client PCs.

Everybody On

1 HD content required to view HD images

2 Testing was not intended to demonstrate fitness for U.S. Department of Defense contracts or for military use. Test results are not a guarantee of future performance under these test conditions

3 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Multi Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance

4 For hard drives, GB = 1 billion bytes. Up to 10 GB (for Vista) or 15 GB (for Windows 7) of system disk is reserved for the system recovery software

5 Intel® Turbo Boost 2.0 technology requires a PC with a processor with Intel Turbo Boost 2.0 capability. Intel Turbo Boost 2.0 performance varies depending on hardware, software and overall system configuration. See www.intel.com/technology/turboboost for more information

6 Some functionality of Intel vPro, such as Intel Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for vPro technologies is dependent on 3rd party software providers. Compatibility with future "virtual appliances", Microsoft Windows Vista and Windows 7 operating systems is yet to be determined

7 Wireless use requires separately purchased service contract. Check with your local vendor for coverage area and availability in your area. Connection and speeds will vary due to location, environment, network conditions, and other factors

8 Wireless access point and Internet service required. Availability of public wireless access points limited

9 HP QuickWeb is accessible when the notebook is off in Windows based systems. Internet access is required. Timing may vary depending on the system configuration. To enable the feature following the removal of the battery, reboot the notebook prior to subsequent use

Accessories and Services

HP Elite Slim Top Load Case

HP Elite Slim Top Load Case is perfect for the highly mobile professional with an eye for design. Constructed of leather and heavy-duty nylon, this durable case provides ample storage room for all the business necessities, while maintaining its stylish appearance.

Product number: AX680AA

HP Notebook Projection Companion

Designed for use in smaller settings where a handful of people are present, the HP Notebook Projection Companion is ideal for highly mobile users. Compatible with HP Business and Consumer Notebook PCs and other notebooks with a VGA connection, this ultra-portable accessory is powerful and durable enough to serve as your primary projector or as a backup while on the road. DLP technology gives your presentations sharp images, crisp text and vibrant colors. Weighing less than a pound (0.9 lb/0.42 kg) and measuring just 3.6 x 1.6 x 4.4 inches (9.3 x 4.0 x 11.1 cm), this remarkably compact projector fits easily inside your notebook carrying case.

Product number: AX325AA

HP Adjustable Dual Display Stand

The HP Adjustable Dual Display Stand allows you to use two displays to maximize your productivity and optimize efficiency. Either or both displays can be rotated to landscape or portrait orientation, and the stand is depth-, height- , tilt-, and angle-adjustable so you can view both screens at eye-level as well as slightly facing each other, letting you track multiple applications and information sources at the same time. Integrated base rollers let you rotate the stand so you can more easily share your work.

Product number: AW664AA

HP 65W Smart Travel AC Adapter

AC power adapters from HP power your notebook and charge the internal battery simultaneously. These adapters provide you with the ability to power your notebook when away from the office or on the road. The HP 65W Slim Travel Adapter is perfect for international travelers or "road warriors" who are always on the go. The adapter is 40% thinner than the standard 65W adapter and includes a convenient USB port for charging other accessories while you work. Four international adapter plugs help make sure your Slim Travel Adapter works wherever you do. A stylish protective carrying case keeps everything together.

Product number: AU155AA

HP Docking Station Cable Lock

The HP Docking Station Cable Lock is dramatically simpler to use than previous locks and delivers enhanced security. The HP Docking Station Cable Lock gives you two locking options: lock the docking station only (which also prevents access to the advanced docking stations drive bay) or lock both the docking station and the notebook.

Product number: AU656AA

3-year Next Business Day Onsite

Receive 3 years of next business day onsite repair from an HP-qualified technician for your computing device, if the issue cannot be solved remotely

Product number: U4414E
